There is a place on this board for debate, including debate about TCS. It's called 'the Ring'.

Posts in the TCS section are for support, not debate.

### **still not impressed**

the ethos of a place that limits arguments to "The Ring" is, shall we say, unappealing.

### **It's about learning...**

I am one of the moderators for that forum. It has had it's ups and downs, some Curi might remember. It is a safe place for people wanting to discuss TCS without having to defend it. We toss ideas around, ask lots of questions, but are always polite no matter how boring or unappealing that might be. It's a great place to learn. ~~~Traci~~~
